

# AS Led Lamp System

Specialist LED lamp with two colors of light

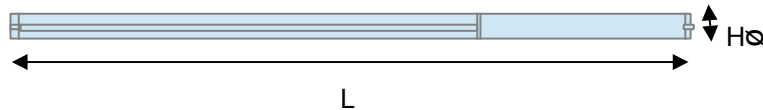

**CHARACTERISTICS:** Specialist LED lamp designed to illuminate the farm buildings which require very high tightness and increased chemical resistance. Innovative use of two colors of light (3000K warm white and blue) in a single lamp makes it the ideal lamp to light henhouse..

**MADE OF:** Housing made of transparent tubes polycarbonate (PC) closed two expanding plugs made from a blend of polycarbonate and fiberglass light gray, plugs sealed with O-ring NBR

**FITTING ELEMENTS:** Clamp polycarbonate fixed to the ceiling / wall hook to the metal bracket

### CERTIFICATES AND SYMBOLS

### TECHNICAL DATA

Rated voltage	230V +-10% 50Hz
Electric current	0,10A
The luminaire wattage	21W
Power factor PF	>0,50
Efficiency lamps	>88%
Source of light	LED 64pcs (+8pcs blue)
Type LED	Duris E5, P5
Durability LEDs	50 000h przy 25°C 30 000h przy 45°C
Working temperature	-20 +45°C
Storage temperature	-30 +85°C
